

## **Third Quarter Report**

## **Condensed Consolidated Interim Financial Statements**

(stated in Canadian dollars)

Three and Nine Months ended September 30, 2021

(Unaudited – Prepared by Management)

# Notice of No Auditor Review of Unaudited Condensed Consolidated Interim Financial Statements For the Three and Nine Months Ended September 30, 2021

In accordance with National Instrument 51-102 Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of these unaudited condensed consolidated interim financial statements, they must be accompanied by a notice indicating that the unaudited condensed consolidated interim financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed consolidated interim financial statements of Aztec Minerals Corp. (the "Company") for the three and nine months ended September 30, 2021 (the "Financial Statements") have been prepared by and are the responsibility of the Company's management, and have not been reviewed by the Company's auditors. The Financial Statements are stated in Canadian dollars, unless otherwise indicated, and are prepared in accordance with International Accounting Standards 34 ("IAS 34") and International Financial Reporting Standards ("IFRS").

Notes to the Condensed Consolidated Interim Financial Statements

Three and Nine Months ended September 30, 2021

(Unaudited – Prepared by Management)

(Stated in Canadian dollars)

#### 1. Nature of Operations and Going Concern

Aztec Minerals Corp. (the "Company") was incorporated on July 6, 2007 under the laws of British Columbia, Canada. The address of the Company's registered office is #910 – 800 West Pender Street, Vancouver, BC, Canada, V6C 2V6 and its principal place of business is #1130 – 609 Granville Street, Vancouver, BC, Canada, V7Y 1G5.

The Company is in the mineral exploration business and has not yet determined whether its mineral property interests contain reserves. The recoverability of amounts capitalized for mineral property interests is dependent upon the ability of the Company to arrange appropriate financing as needed, the discovery of reserves, the development of its properties, confirmation and maintenance of the Company's interest in the underlying properties, the receipt of necessary permitting and upon future profitable production or proceeds from the disposition thereof.

The Company has no operating revenues, has incurred a significant net loss of \$1.1 million for the nine months ended September 30, 2021 (September 30, 2020 - \$1 million), and has a deficit of \$6.7 million as at September 30, 2021 (December 31, 2020 - \$5.7 million). These condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes the realization of assets and liquidation of liabilities in the normal course of business. The Company's ability to continue as a going concern is dependent on the ability of the Company to raise debt or equity financings, and the attainment of profitable operations. Management would need to raise the necessary capital to meet its planned business objectives. There can be no assurance that management's plans will be successful. These matters indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern. These condensed consolidated interim financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern, and such adjustments could be material.

#### 2. Basis of Presentation

#### (a) Statement of compliance:

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board and the interpretations of the International Financial Reporting Standards Interpretations Committee. These unaudited condensed consolidated interim financial statements do not include all of the information and disclosures required for full and complete annual financial statements, and accordingly should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2020. The Company has consistently applied the same accounting policies for all periods as presented. Certain of the prior periods' comparative figures may have been reclassified to conform to the presentation adopted in the current period.

#### (b) Approval of condensed consolidated interim financial statements:

These condensed consolidated interim financial statements were approved by the Company's Board of Directors on November 26, 2021.

(An Exploration Stage Company)
Notes to the Condensed Consolidated Interim Financial Statements
Three and Nine Months ended September 30, 2021
(Unaudited – Prepared by Management)
(Stated in Canadian dollars)

#### **2. Basis of Presentation** (continued)

#### (c) Basis of presentation:

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for certain financial instruments which are measured at fair value, as disclosed in Note 5. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

#### (d) Functional currency and presentation currency:

The functional and presentation currencies of the Company and its subsidiaries are the Canadian dollar. Amounts recorded in a foreign currency are translated into Canadian dollars as follows:

- monetary assets and liabilities at the exchange rate at the condensed consolidated interim statement of financial position date;
- non-monetary assets and liabilities at historical exchange rates, unless such items are carried at fair value, in which case they are translated at the exchange rate in effect on the date which the fair value was determined; and
- revenue and expense items at the rate of exchange in effect on the transaction date.

Exchange gains and losses are recorded in profit or loss in the period in which they occur.

#### (e) Critical accounting estimates and judgments:

The preparation of the condensed consolidated interim financial statements in accordance with IFRS requires management to make estimates, assumptions and judgements that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements along with the reported amounts of revenues, if any, and expenses during the period. Actual results may differ from these estimates and, as such, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions are recognized in the period in which the estimates are revised and in any future periods affected.

Significant areas requiring the use of management estimates relate to the determination of accrued liabilities; accrued site remediation; the variables used in the determination of the fair values of stock options granted and finders fee warrants issued; and the valuation of deferred tax assets. While management believes the estimates are reasonable, actual results could differ from those estimates and could impact future financial performance and cash flows.

The Company applies judgment in assessing whether material uncertainties exist that would cast significant doubt as to whether the Company could continue as a going concern.

The Company applies judgment in assessing the functional currency of each entity consolidated in these condensed consolidated interim financial statements. The functional currency of the Company and its subsidiaries is determined using the currency of the primary economic environment in which that entity operates.

(An Exploration Stage Company)
Notes to the Condensed Consolidated Interim Financial Statements
Three and Nine Months ended September 30, 2021
(Unaudited – Prepared by Management)
(Stated in Canadian dollars)

#### 2. Basis of Presentation (continued)

#### (e) Critical accounting estimates and judgments: (continued)

The Company applies judgement in determining whether the Company has control of its entities by assessing the following factors: whether the Company has power; whether the Company has exposure or rights to variable returns; and whether the Company has the ability to use its power to affect the amount of its returns.

At the end of each reporting period, the Company assesses each of its mineral property interests to determine whether any indication of impairment exists. Judgment is required in determining whether indicators of impairment exist, including factors such as: the period for which the Company has the right to explore; expected renewals of exploration rights; whether substantive expenditures on further exploration and evaluation of mineral property interests are budgeted or planned; and results of exploration and evaluation activities.

#### 3. Significant Accounting Policies

The accounting policies set out below have been applied consistently to all periods presented in these condensed consolidated interim financial statements.

#### (a) Basis of consolidation:

These condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned subsidiary, Aztec Minerals America Corp. During the year ended December 31, 2020, the Company transferred the wholly owned subsidiary, Minera Azteca Dorada S.A. de C.V. ("Minera Azteca") to Aztec Minerals (Mexico) JV Corp. ("Aztec Mexico JV") of which the Company owns 65% ownership (Note 6(a)). The financial statements of subsidiaries are included in the condensed consolidated interim financial statements from the date control commences until the date control ceases. All significant intercompany transactions and balances are eliminated on consolidation.

Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Non-controlling interests in the net assets are identified separately from the Company's deficiency. The non-controlling interest consists of the non-controlling interest as at the date of the original acquisition plus the non-controlling interest's share of changes in equity or deficiency since the date of acquisition.

#### (b) Financial instruments:

The Company categorizes financial instruments measured at fair value at one of three levels according to the reliability of the inputs used to estimate fair values. The fair value of financial assets and financial liabilities included in Level 1 are determined by reference to quoted prices in active markets for identical assets and liabilities. Financial assets and liabilities in Level 2 are valued using inputs other than quoted prices for which all significant inputs are based on observable market data. Level 3 valuations are based on inputs that are not based on observable market data.

(An Exploration Stage Company)

Notes to the Condensed Consolidated Interim Financial Statements

Three and Nine Months ended September 30, 2021

(Unaudited – Prepared by Management)

(Stated in Canadian dollars)

#### 3. Significant Accounting Policies (continued)

#### (c) Mineral property interests:

The Company capitalizes all costs related to investments in mineral property interests on a property-by-property basis. Such costs include mineral property acquisition or staking costs and exploration and development expenditures, net of any recoveries. Costs are deferred until such time as the extent of mineralization has been determined and mineral property interests are either developed or the Company's mineral rights are allowed to lapse.

All deferred mineral property expenditures are reviewed, on a property-by-property basis, to consider whether there are any conditions that may indicate impairment. When the carrying value of a property exceeds its net recoverable amount that may be estimated by quantifiable evidence of an economic geological resource or reserve, joint venture expenditure commitments or the Company's assessment of its ability to sell the property for an amount exceeding the deferred costs, provision is made for the impairment in value.

The amounts shown for acquisition costs and deferred exploration expenditures represent costs incurred to date and do not necessarily reflect present or future values. These costs will be depleted over the useful lives of the properties upon commencement of commercial production or written off if the property interests are abandoned or the claims are allowed to lapse.

From time to time, the Company may acquire or dispose of a mineral property interest pursuant to the terms of a property option agreement. As the property options are exercisable entirely at the discretion of the optionee, the amounts payable or receivable in the future are not recorded. Property option payments are recorded as property costs or recoveries when the payments are made or received, respectively. When the amount of recoveries exceeds the total amount of capitalized costs of the property, the amount in excess of costs is credited to profit or loss.

#### 4. Management of Capital

The Company is an exploration stage company and its activities involve a high degree of risk. The Company has not yet determined whether its mineral property interests contain reserves and currently has not earned any revenues from its mineral property interests and does not generate cash flows from operations. The Company's primary sources of funds are from debt capital and the issuance of share capital.

The Company defines its capital as debt and share capital. Capital requirements are driven by the Company's exploration activities on its mineral property interests. To effectively manage the Company's capital requirements, the Company has a planning and budgeting process in place to ensure that adequate funds are available to meet its strategic goals. The Company monitors actual expenses on all exploration projects and overhead to manage its costs, commitments and exploration activities.

The Company invests its excess capital in liquid investments to obtain adequate returns. The investment decision is based on cash management to ensure working capital is available to meet the Company's short-term obligations while maximizing liquidity and returns of unused capital.

Management reviews the capital availability and needs on a regular basis to ensure the above-noted objectives are met. There have been no changes to the Company's approach to capital management during the nine months ended September 30, 2021.

(An Exploration Stage Company)

Notes to the Condensed Consolidated Interim Financial Statements

Three and Nine Months ended September 30, 2021

(Unaudited – Prepared by Management)

(Stated in Canadian dollars)

#### 4. Management of Capital (continued)

Although the Company has raised funds in the past from the issuance of share capital, it is uncertain whether it would be able to continue this financing in the future. The Company will continue to rely on debt and equity financings to meet its commitments as they become due, to continue exploration work on its mineral property interests, and to meet its administrative overhead costs for the coming periods.

As at September 30, 2021, the Company was not subject to any externally imposed capital requirements.

#### 5. Financial Instruments and Management of Financial Risk

The Company classifies its financial instruments as follows:

**Financial Assets** 

Cash Fair value through profit or loss ("FVTPL")
Receivables Loans and receivable at amortized cost

**Financial Liability** 

Accounts payable and accrued liabilities Other financial liabilities under amortized cost

The fair values of the Company's receivables and accounts payable and accrued liabilities approximate their carrying values due to the short terms to maturity. Cash is measured at fair value using Level 1 inputs.

The Company is exposed in varying degrees to a variety of financial instrument related risks, including credit risk, liquidity risk, and market risk which includes foreign currency risk, interest rate risk and other price risk. The types of risk exposure and the way in which such exposure is managed are as follows.

#### (a) Credit risk:

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations.

The Company's credit risk is primarily attributable to its cash. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash with high-credit quality Canadian financial institutions. Non-contractual taxes receivables from government agencies are not considered financial instruments.

Management has reviewed the items comprising the accounts receivable balance, and determined that the accounts are collectible.

#### (b) Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due.

(An Exploration Stage Company)

Notes to the Condensed Consolidated Interim Financial Statements

Three and Nine Months ended September 30, 2021

(Unaudited – Prepared by Management)

(Stated in Canadian dollars)

## 5. Financial Instruments and Management of Financial Risk (continued)

#### (b) Liquidity risk: (continued)

The Company ensures that there is sufficient capital in order to meet short-term business requirements, after taking into account the Company's holdings of cash and its ability to raise debt and equity financings. As at September 30, 2021, the Company had working capital of \$827,000 (December 31, 2020 - \$2 million). The Company will require significant additional funding to meet its short-term liabilities and administrative overhead costs, and to maintain its mineral property interests in 2021.

Accounts payable and accrued liabilities are due in less than 90 days.

#### (c) Market risk:

The significant market risk to which the Company is exposed are foreign currency risk, interest rate risk and other price risk.

#### (i) Foreign currency risk:

The Company has certain cash and accounts payable stated in United States dollars and Mexican pesos, mineral property interests which are in the USA and Mexico, and a portion of its operations are in Mexico, resulting in expenditures subject to foreign currency fluctuations. Fluctuations in the United States dollar and Mexican peso would impact the losses of the Company and the values of its assets and liabilities as the Company's functional and presentation currencies are the Canadian dollar. The Canadian dollar fluctuates with the United States dollar and Mexican peso.

At September 30, 2021, the Company was exposed to currency risk for its Canadian dollar equivalent of financial assets and liabilities denominated in currencies other than Canadian dollars as follows:

		Stat	ed in Ca	anadian Dolla	rs		
		Held	l in		Total		
	Uni	ted States					
	I	Dollars	Mexican Pesos				
Cash Accounts payable and accrued liabilities	\$	209,325 (116,010)	\$	1,324 (6,235)	\$	210,649 (122,245)	
Net financial assets (liabilities), September 30, 2021	\$	93,315	\$	(4,911)	\$	88,404	
Cash Accounts payable and accrued liabilities	\$	224,916 (30,013)	\$	107 (3,495)	\$	225,023 (33,508)	
Net financial assets (liabilities), December 31, 2020	\$	194,903	\$	(3,388)	\$	191,515	

Based upon the above net exposure as at September 30, 2021 and assuming all other variables remain constant, a 10% (December 31, 2020 - 15%) depreciation or appreciation of the Canadian dollar relative to the United States dollar and Mexican pesos could result in a decrease/increase of approximately \$9,000 (December 31, 2020 - \$29,000) in the Company's net losses.

#### 5. Financial Instruments and Management of Financial Risk (continued)

#### (c) Market risk: (continued)

(i) Foreign currency risk: (continued)

The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

#### (ii) Interest rate risk:

In respect of financial assets, the Company's policy is to invest excess cash at floating rates of interest in cash equivalents, in order to maintain liquidity, while achieving a satisfactory return. Fluctuations in interest rates impact on the value of cash equivalents. Interest rate risk is not significant to the Company as it has no cash equivalents at year-end.

## (iii) Other price risk:

Other price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices. The Company currently does not have any financial instruments which fluctuate with market prices.

## **6. Mineral Property Interests** (continued)

#### (a) Cervantes property (Mexico):

On September 30, 2016, the Company entered into the Option Amendment and Assignment Agreement for the Cervantes Property ("Option Assignment Agreement") for the Cervantes Property with Aztec Metals Corp., which share common directors with the Company, ("AzMet") and Kootenay Silver Inc. ("Kootenay"), whereby AzMet assigned to the Company all of its rights and interests in the Property Option Agreement dated July 25, 2015 between AzMet and Kootenay (the "Option Agreement").

In July 2019, the Company earned its 65% interest in the Cervantes property whereby the Company issued 500,000 common shares to Kootenay; paid US\$50,000 in cash; and incurred exploration expenditures totalling US\$1.2 million for the Cervantes property.

In December 2020, the Company entered into a joint venture agreement with Kootenay whereby the Company holds 65% interest in the joint venture entity, Aztec Mexico JV. Minera Azteca is a wholly-owned subsidiary of Aztec Mexico JV and owns the Cervantes property. The Company determined that the 65% interest in Aztec Mexico JV does not constitute a loss of control. The issuance of the shares is accounted for as an equity transaction and resulted in a non-controlling interest of \$954,847.

#### (b) Tombstone property (USA):

On November 30, 2017, as amended on February 28, 2018, the Company entered into a Purchase Option Agreement for the Tombstone property (the "Tombstone Option Agreement") with Baroyeca Gold & Silver Inc. and its two wholly owned U.S. subsidiaries (collectively, "Baroyeca"). The Company can earn a 75% interest by making cash payments of \$100,000, incurring exploration expenditures of \$1 million and issuing 1 million common shares over a three year period starting from March 2018.

In February 2021, the Company entered into an asset joint venture with Baroyeca's two U.S. subsidiaries whereby the Company holds 75% interest in the asset joint venture.

#### (c) Title to mineral property interests:

The Company has investigated rights of ownership of all of its mineral properties/concessions and, to the best of its knowledge, all agreements relating to such ownership rights are in good standing. However, all properties/concessions may be subject to prior claims, agreements or transfers, and rights of ownership may be affected by undetected defects.

#### (d) Realization of assets:

The Company's investment in and expenditures on its mineral property interests comprise a significant portion of the Company's assets. Realization of the Company's investment in these assets is dependent on establishing legal ownership of the properties, on the attainment of successful commercial production or from the proceeds of their disposal. The recoverability of the amounts shown for mineral property interests is dependent upon the existence of reserves, the ability of the Company to obtain necessary financing to complete the development of the properties, and upon future profitable production or proceeds from the disposition thereof.

(Unaudited – Prepared by Management)

(Stated in Canadian dollars)

## **6. Mineral Property Interests** (continued)

#### (e) Environmental matters:

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous materials and other matters. The Company may also be held liable should environmental problems be discovered that were caused by former owners and operators of its properties and properties in which it has previously had an interest. The Company conducts its mineral exploration activities in compliance with applicable environmental protection legislation. The Company is not aware of any existing environmental problems related to any of its current or former mineral property interests that may result in material liability to the Company.

Environmental legislation is becoming increasingly stringent and costs and expenses of regulatory compliance are increasing. The impact of new and future environmental legislation of the Company's operation may cause additional expenses and restrictions.

If the restrictions adversely affect the scope of exploration and development on the mineral properties, the potential for production on the property may be diminished or negated.

#### 8. Loan Payable

On May 22, 2020, the Company arranged an aggregate of \$60,000 in loans from individuals, two of whom are insiders. Each loan bears interest at a rate of 12% per annum, payable on maturity, and has a term of 6 months, provided that the Company may prepay without penalty. A loan bonus totaling 300,000 warrants were issued to the lenders, with each warrant having an exercise price of \$0.20 and expiry date of June 3, 2021. The Company repaid the principal and interest on the loans in July 2020.

#### 9. Share Capital

#### (a) Authorized:

The authorized share capital of the Company is comprised of an unlimited number of common shares without par value.

#### (b) Issued:

(i) On February 17, 2021, the Company issued 600,000 common shares at a fair value of \$0.335 per share to earn its 75% in the Tombstone property (Note 6(b)).

During the nine months ended September 30, 2021, warrants for 3.18 million common shares were exercised for gross proceeds of \$626,000 and stock options for 160,000 common shares were exercised for gross proceeds of \$19,200.

In October and November 2021, the Company closed a private placement in two tranches totalling 5.25 million units at \$0.30 per unit for gross proceeds of \$1.58 million. Each unit was comprised of one common share and one share purchase warrant which is exercisable to acquire one common share at an exercise price of \$0.40 for a period of two years. On October 29, 2021, the Company closed the first tranche for 3.3 million units for gross proceeds of \$1 million. On November 17, 2021, the Company closed the second tranche for 1.9 million units for gross proceeds of \$575,000. Finders fees were comprised of \$294 in cash and 980 warrants with the same terms as the underlying warrants in the private placement.

(An Exploration Stage Company)

(Unaudited – Prepared by Management)

(Stated in Canadian dollars)

#### 9. Share Capital (continued)

#### (b) Issued: (continued)

(ii) On March 25, 2020, the Company issued 300,000 common shares at a fair value of \$0.05 per share to Baroyeca (Note 6(b)).

On April 3, 2020, the Company closed a private placement for 8,000,000 units at \$0.05 per unit for total proceeds of \$400,000. Each unit was comprised of one common share and one-half of a full common share purchase warrant. Each full warrant is exercisable to acquire one common share at an exercise price of \$0.10 and has an expiry date of April 3, 2022.

In July 2020, the Company closed a private placement in two tranches totalling 10.3 million units at a price of \$0.30 per unit for gross proceeds of \$3.08 million with each unit comprised of one common share and one-half of one common share purchase warrant; each whole warrant is exercisable to acquire one common share at an exercise price of \$0.40 per share for a period of two years. On July 9, 2020, the Company closed the first tranche for 7.1 million units for gross proceeds of \$2.1 million. On July 23, 2020, the Company closed the second tranche for 3.2 million units for gross proceeds of \$955,000. Finders fees included \$94,883 in cash and 301,877 warrants with the same terms as the underlying warrants in the private placement.

In 2020, warrants for 4.37 million common shares and stock options for 150,000 common shares were exercised for gross proceeds of \$853,563.

#### (c) Stock option plan:

In January 20, 2017, the Company adopted a stock option plan that allows it to grant stock options to its directors, officers, employees and consultants, provided that the aggregate number of stock options granted shall not at any time exceed 10% of the total number of issued and outstanding common shares of the Company. The exercise price of each stock option shall be based on the market price of the Company's shares as traded on the TSX-V at the time of grant. Stock options have a maximum term of ten years and terminate 30 days following the termination of the optionee's employment, except in the case of death, in which case they terminate one year after the event. Vesting of stock options is made at the discretion of the Board at the time the stock options are granted.

The continuity of stock options for the nine months ended September 30, 2021 is as follows:

	Septemb	er 30, 2021
	Number of shares	Weighted average exercise price
Outstanding balance, beginning of period	4,830,000	\$0.23
Granted	1,015,000	\$0.30
Exercised	(160,000)	\$0.12
Outstanding balance, end of period	5,685,000	\$0.24

#### 9. Share Capital (continued)

(c) Stock option plan: (continued)

The following table summarizes information about stock options outstanding and exercisable at September 30, 2021:

		Options Outstanding			Options Exercisable	
		Weighted			Weighted	
		Average	Weighted		Average	Weighted
	Number	Remaining	Average	Number	Remaining	Average
Exercise	Outstanding at	Contractual Life	Exercise	Exercisable at	Contractual Life	Exercise
Prices	Sept 30, 2021	(Number of Years)	Prices	Sept 30, 2021	(Number of Years)	Prices
\$0.12 (1)	100,000	0.37	\$0.12	100,000	0.37	\$0.12
\$0.105 (2)	1,800,000	0.59	\$0.105	1,800,000	0.59	\$0.105
\$0.12	840,000	2.76	\$0.12	840,000	2.76	\$0.12
\$0.40	1,930,000	3.85	\$0.40	1,158,000	3.85	\$0.40
\$0.30	1,015,000	4.53	\$0.30	203,000	4.53	\$0.30
	5,685,000	2.72	\$0.24	4,101,000	2.15	\$0.20

<sup>(1)</sup> In February 2020, the Company re-priced the stock options from an exercise price of \$0.25 to \$0.12.

In February 2020, the Company re-priced the stock options from an exercise price of \$0.35 to \$0.105. The re-pricing of the stock options which are held by insiders was approved by disinterested shareholders of the Company at its annual general meeting of shareholders in June 2020, in accordance with the policies of the TSX-V.

On April 12, 2021, the Company granted stock options for 1,015,000 common shares to directors, officers and employees with an exercise price of \$0.30 and expiry date of April 12, 2026. The stock options are subject to vesting provisions in which 20% vest on grant date and 20% vest every 6 months thereafter.

During the nine months ended September 30, 2021, the Company recognized share-based payments of \$314,792 (September 30, 2020 - \$196,971), net of forfeitures, based on the fair value of options that were earned by the provision of services during the period. Share-based payments are segregated between directors and officers, employees and consultants, as applicable, as follows:

	Thre	e months end	led Sep	otember 30,	Nin	Nine months ended September 30,			
	2021		2020		2021		2020		
Directors and officers Consultants Employees	\$	84,533 3,704 1,416	\$	145,250 30,487 2,764	\$	288,406 21,417 4,969	\$	159,010 34,804 3,157	
	\$	89,653	\$	178,501	\$	314,792	\$	196,971	

(An Exploration Stage Company)

Notes to the Condensed Consolidated Interim Financial Statements

Three and Nine Months ended September 30, 2021

(Unaudited – Prepared by Management)

(Stated in Canadian dollars)

#### 9. Share Capital (continued)

#### (c) Stock option plan: (continued)

The weighted average fair value of stock options granted and the weighted average assumptions used to calculate share-based payments for stock option grants are estimated using the Black-Scholes option pricing model as follows:

	Septembe	er 30,
	2021	2020
Number of stock options granted	1,015,000	1,930,000
Fair value of stock options granted	\$0.22	\$0.33
Market price of shares on grant date	\$0.29	\$0.42
Pre-vest forfeiture rate	2.81%	6.16%
Risk-free interest rate	0.69%	0.31%
Expected dividend yield	0%	0%
Expected stock price volatility	118.31%	119.45%
Expected option life in years	3.85	4.01

Expected stock price volatility is based on the historical price volatility of the Company and companies which are comparable to the profile of the Company.

#### (d) Warrants:

At September 30, 2021, the Company had outstanding warrants as follows:

Exercise		Outstanding at				Outstanding at
Prices	Expiry Dates	December 31, 2020	Issued	Exercised	Expired	September 30, 2021
\$0.20	July 2, 2021 (1)	3,000,000	-	(2,780,000)	(220,000)	-
\$0.20	June 3, 2021	300,000	-	(300,000)	-	-
\$0.10	April 3, 2022	2,600,000	-	(100,000)	-	2,500,000
\$0.40	July 9, 2022	3,538,082	-	-	_	3,538,082
\$0.40	July 9, 2022 (2)	212,040	-	-	_	212,040

(Stated in Canadian dollars)

#### 13. COVID-19

In 2020, the coronavirus global pandemic ("COVID-19") affected the global economy as well as caused volatility in the global financial markets. While the full impact of COVID-19 on the global economy remains uncertain and continued adverse affects of COVID-19 remain a risk. The extent to which COVID-19 may impact the Company's business will depend on future developments such as the geographic spread of the disease, the duration of the outbreak, vaccination rates, travel restrictions and social distancing, business closures or business disruptions, and the effectiveness of actions taken in Canada, the United States and other countries to contain and treat the disease. It is not possible to reliably estimate the length or severity of these developments and their financial impact to the date of approval of these condensed consolidated interim financial statements.

## CAUTION – FORWARD LOOKING STATEMENTS

Certain statements contained herein regarding the Company and its operations constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995. All statements that are not historical facts, including without limitation statements regarding future estimates, plans, objectives, assumptions or expectations of future performance, are "forward-looking statements". We caution you that such "forward looking statements" involve known and unknown risks and uncertainties that could cause actual results and future events to differ materially from those anticipated in such statements. Such risks and uncertainties include fluctuations in precious metal prices, unpredictable results of exploration activities, uncertainties inherent in the estimation of mineral reserves and resources, if any, fluctuations in the costs of goods and services, problems associated with exploration and mining operations, changes in legal, social or political conditions in the jurisdictions where the Company operates, lack of appropriate funding and other risk factors, as discussed in the Company's filings with Canadian and American Securities regulatory agencies. The Company expressly disclaims any obligation to update any forward-looking statements, other than as may be specifically required by applicable securities laws and regulations.

#### 1.0 Preliminary Information

The following Management's Discussion and Analysis ("MD&A") of Aztec Minerals Corp. (the "Company") should be read in conjunction with the accompanying unaudited condensed consolidated interim financial statements for the three and nine months ended September 30, 2021 and audited consolidated statements of financial position as at December 31, 2020 and 2019 and the consolidated statements of comprehensive loss, changes in shareholders' equity and cash flows for the years ended December 31, 2020 and 2019, and a summary of significant accounting policies and other explanatory information, all of which are available at the SEDAR website at <a href="https://www.sedar.com">www.sedar.com</a>.

Financial information in this MD&A is prepared in accordance with International Accounting Standards 34 *Interim Financial Reporting* based upon the principles of International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), and all dollar amounts are expressed in Canadian dollars unless otherwise indicated.

All information contained in the MD&A is as of November 26, 2021 unless otherwise indicated.

David Heyl, BSc, PGeo, Vice President (Exploration), or Bradford Cooke, PGeo, a Director of the Company, is the Qualified Person who reviewed and approved any technical information in this MD&A for 2021. Joseph Wilkins, BSc (Geology), PG, advisor and formerly Vice President (Exploration) and Chief Geologist of the Company, was the Qualified Person who reviewed and approved any technical information in this MD&A for 2020.

#### 1.1 Background

The Company was incorporated on July 6, 2007 under the laws of British Columbia, Canada, pursuant to the *Business Corporations Act* (British Columbia) and had been dormant until 2016. The Company is engaged primarily in the business of evaluating, acquiring and exploring natural resource properties.

The Company acquires properties by staking initial claims, negotiating for permits from government authorities, negotiating with holders of claims or permits, entering into property option agreements to acquire interests in claims, or purchasing companies with claims or permits. On these properties, the Company explores for minerals on its own or in joint ventures with others. Exploration for metals usually includes surface sampling, airborne and/or ground geophysical surveys and drilling. The Company is not limited to any particular metal or region, but the corporate focus is on precious and base metals in North America.

(An Exploration Stage Company)
Management's Discussion and Analysis
For the Three and Nine Months ended September 30, 2021
(expressed in Canadian dollars)

As the Company is focused on its mineral exploration activities, there is no mineral production, sales or inventory in the conventional sense. The recoverability of amounts capitalized for mineral property interests is dependent upon the existence of reserves in its mineral property interests; the ability of the Company to arrange appropriate financing and receive necessary permitting for the exploration and development of its property interests; confirmation of the Company's interest in certain properties; and upon future profitable production or proceeds from the disposition thereof. Such exploration and development activities normally take years to complete and the amount of resulting income, if any, is difficult to determine with any certainty at this time. Many of the key factors are outside of the Company's control. As the carrying value and amortization of mineral property interests and capital assets are, in part, related to the Company's mineral reserves and resources, if any, the estimation of such reserves and resources is significant to the Company's financial position and results of operations.

#### 1.2 Overall Performance

#### Option Amendment and Assignment Agreement with Aztec Metals Corp.

On September 30, 2016, the Company entered into the Option Amendment and Assignment Agreement for the Cervantes Property ("Option Assignment Agreement") for the Cervantes property with Aztec Metals Corp., which share common directors with the Company, ("AzMet") and Kootenay Silver Inc. ("Kootenay"), whereby AzMet assigned to the Company all of its rights and interests in the Property Option Agreement dated July 25, 2015 between AzMet and Kootenay (the "Cervantes Option Agreement"). In July 2019, the Company earned its 65% interest in the Cervantes property whereby the Company issued 500,000 common shares to Kootenay; paid US\$50,000 in cash; and incurred exploration expenditures totalling US\$1.2 million. The Company entered into a joint venture agreement with Kootenay in December 2020.

In late February 2021, the Company mobilized a field crew to conduct a soil and outcrop rock chip surface sampling program which outlined new gold-copper-molybdenum geochemical soil and rock anomalies on the Cervantes porphyry gold-copper property in Sonora, Mexico. The soil sample grid covered 518 hectares (5.18 square kilometers) with 477 samples in a 100 by 100 meter spacing, to extend its coverage over the Estrella, California, Brazil and California North targets to the western, northern, and eastern limits of the property. The outcrop rock chip sampling comprised 110 samples making the current project total 340, plus previous to 2021 the Company collected 608 channel samples and 23 stream sediment samples.

Highlights of the exploration program are as follows:

- Rock chip sampling returned assays up to 21.3 grams per tonne (gpt) gold, with ten samples running over 1 gpt Au, with anomalous results of 20-250 ppb Au occurring proximal to the strongest rock gold values.
- Soil sampling returned assays up to 3.60 gpt Au, with anomalous results of 10-70 ppb Au occurring proximal to the strongest soil gold values.

Note that rock chip samples are selective by nature and do not represent intervals of mineralization hosted on the property.

In early November 2021, the joint venture partners approved a 22 hole, 5000 m reverse circulation drill program which will test four main targets, namely, California, California North, Jasper and Purisima East.

Further details of the exploration programs for the Cervantes project are provided in the Company's news releases:

- News Release dated February 23, 2021 and titled, "Aztec Minerals Kootenay Silver Joint Venture Commences 2021 Exploration Program on the Cervantes Porphyry Gold-Copper Property in Sonora, Mexico".
- News Release dated August 4, 2021 and titled, "Aztec Kootenay JV Outlines New Gold-Copper-Molybdenum Geochemical Soil and Rock Anomalies on the Cervantes Porphyry Gold-Copper Property in Sonora, Mexico".
- News Release dated November 4, 2021 and titled, "Aztec Kootenay Joint Venture Approves 22 hole, 5000 meter RC Drill Program at Cervantes Gold-Copper Project, Sonora, Mexico".

(expressed in Canadian dollars)

#### Purchase Option Agreement with Baroyeca Gold & Silver Inc.

On November 30, 2017, as amended on February 28, 2018, the Company entered into a Purchase Option Agreement for the Tombstone property (the "Tombstone Option Agreement") with Baroyeca Gold & Silver Inc. and its two wholly owned U.S. subsidiaries (collectively, "Baroyeca"). The Company can earn a 75% interest by making cash payments of \$100,000, incurring exploration expenditures of \$1 million and issuing 1 million common shares over a three year period starting from March 23, 2018. In February 2021, the Company earned its 75% interest and entered into a joint venture for the Tombstone property.

The Tombstone property includes the historic Contention Mine and surrounding patented claims totalling 404 acres (163.5 hectares) with an additional 24 acres (9.7 hectares) of unpatented claims. The Tombstone Mining District, located 65 miles southeast of Tucson, Arizona, and accessed by State Highway 80, is well known for its high grade, oxidized, carbonate replacement deposits of silver-gold-lead mineralization hosted in veins, mantos, pipes and disseminated orebodies.

In March 2021, the Company acquired two patented claims amounting to 15.2 hectares (37.5 acres), increasing the overall Tombstone joint venture land package to 434.4 hectares (1,073.4 acres). In April 2021, the Company mobilized a reverse circulation drill program at Tombstone which was completed in September 2021 for 23 holes for 2,716 metres. The RC program is designed to step out and down from the Phase 1 drill patterns drilled in 2020 to expand the shallow, broad, bulk tonnage gold-silver mineralization discovered around and below the Contention pit.

Drill results are as follows:

Drill Hole	From m	To m	Interval m*	Au gpt	Ag gpt	Au Eq gpt (1)	Comments

The drill results continue to show strong grades over broad widths, confirming and expanding the historic gold and silver mineralized zones both along strike and down dip.

The Company will consider a core drill program to continue extending the near surface, oxidized gold-silver mineralization to depths of 150-200 m, as well as some much deeper 500-750 m holes to test for Carbonate Replacement Deposit polymetallic massive sulfide mineralization underlying the near surface epithermal mineralization.

Further details of the exploration program for the Tombstone project are provided in the Company's news releases:

## 1.4 Results of Operations

Third Quarter of Fiscal 2021 – Nine months ended September 30, 2021 compared with September 30, 2020

The Company incurred a net loss of \$1.1 million for the nine months ended September 30, 2021, which is higher than the net loss of \$1 million for same period in fiscal 2020, with the former also having higher operating expenses. Net loss was impacted by different functional expense items.

The Company has no sources of operating revenues. Operating losses were incurred for activities of the Company to acquire, explore or maintain its mineral property interests in the Cervantes and Tombstone properties and pursuing mineral projects of merit.

(An Exploration Stage Company)
Management's Discussion and Analysis
For the Three and Nine Months ended September 30, 2021
(expressed in Canadian dollars)

The Company continues with its engagement of an external Mexican accounting firm to assist in financial reporting and tax compliance and representation in Mexico and to provide accounting support in which such fees were incurred, given the Cervantes project in located in Mexico and held by its Mexican subsidiary. Higher accruals for audit and tax compliance fees were recorded in the fourth quarter of 2020 given the corporate structure used to support the joint venture with Kootenay. Accounting fees were lower in the first quarter of 2021 due to allocations to the Cervantes joint venture. Part time accounting contractor was hired in the second quarter of 2021 to support the heightened exploration activities for its two mineral properties which are subject to joint ventures and continued into the third quarter resulting in higher expenses.

Amortization is attributable to office furniture and equipment for its shared office facilities. Amortization was lower in the first quarter of 2021 as certain office equipment have been fully amortized in 2020 although there were acquisitions in the first quarter which resulted in slightly higher amortization in the subsequent quarters in 2021.

Employee remuneration directly related to mineral exploration projects and corporate development were allocated to those specific activities rather than to operations. In August 2020, a non technical senior officer was hired with capital markets experience which increased remuneration in the remaining quarters of 2020 and into 2021. In the second quarter of 2021, increases in employee remuneration were attributable to bonuses paid, executive recruiter fees incurred for seeking a new senior officer, and interim fees charged by a technical director to act as a qualified person to review and approve technical exploration results which interim fees continued into the third quarter.

Legal fees were lower in 2021 than in 2020. In the first quarter of 2020, modifications to exercise prices of stock options necessitated regulatory filings and approvals which increased legal fees. For the third quarter of 2020, such expenses were incurred for its corporate compliance for stock option grants and engagement of investor relation consultants. Nominal fees were incurred in the fourth quarter of 2020. Legal services rendered in 2021 relate to annual corporate filings and updates in domestic and foreign jurisdictions and regulatory filings and were minimal.

Office and sundry include ancillary office support facilities for the Company's activities, and include insurance, office rent, telecommunications and software and systems support and licensing. Insurance increased due to high insurance payouts in the insurance industry resulting in higher premium renewal rates for directors and officers and commercial liability insurance coverages. Office and sundry and rent are generally more fixed than other functional expense categories. Office and sundry increased to support the active exploration programs in 2021. Rent increased due to office facility for a new senior officer who was hired in August 2020. The use of shared office facilities has allowed rent and commitments to be nominal. In mid 2020, the Company proceeded with the setup and migration of a new cloud server to support a more comprehensive and secure IT infrastructure including the associated software licensing costs. In 2021, additional security and backup features and user access controls were implemented as well as additional users, resulting in higher costs relative to prior quarters in 2020.

Project evaluation efforts involve due diligence on identifying mineral properties of merit for acquisition purposes. These costs are attributable to geological technical management review and due diligence, site visits to mineral properties in North America, reviewing technical information, addressing any legal issues associated with due diligence, and engaging consultants to provide greater capital markets exposures. Only nominal travel expenses were incurred in the first quarter of 2020 given limited cash and the economic downturn from the pandemic in the latter part of the quarter. This cost is comprised mostly of technical management review and travel. In the second quarter of 2020, the Company engaged a consultant to provide corporate development activities and to develop strategies and guidance to management to advance current projects and identify new opportunities, which continued into the third quarter. This provided the catalyst for the \$3.08 million private placement which was overallotted and closed in two tranches in the third quarter in 2020. No project review was done in the first quarter of 2021 as the primary focus was the exploration programs for its two mineral properties, and nominal travel expenses were incurred in the second quarter for project review. Negligible expenses were incurred in the third quarter of 2021.

Regulatory expenses include ongoing regulatory compliance obligations and transfer agent services and tend to be similar for comparable periods. The increases in the second quarters of each fiscal period were attributable to its annual and special general meetings held in June. The expenses for the first quarter of 2021 were higher than the same quarter of 2020 due to the higher market capitalization which resulted in higher sustaining fees and annual filing fees, and also due to fees for its continuous disclosures related to more active exploration programs in 2021. Second quarter fees in 2021 were higher from

(An Exploration Stage Company)
Management's Discussion and Analysis
For the Three and Nine Months ended September 30, 2021
(expressed in Canadian dollars)

higher annual general meeting fees. In the third quarter of 2021, the Company proceeded with its DTC eligibility in the USA to allow for greater liquidity in its stock.

Shareholder relations were for advertising and marketing activities, engagement of consultant, and participation in conferences to create awareness of the Company and its Cervantes and Tombstone projects. These activities included the participation in various conferences and shareholder events in North America and Europe related to mineral exploration and mining as well as capital markets, and engaging market participants to assist with expanding the public profile of the Company and its projects. Such expenses were incurred in the first quarter of 2020 for attendance at conferences to continue with its capital market exposure as the Company proceeded with an equity financing in March 2020. These activities increased in the second quarter of 2020 with more significant increases in the remaining quarters of 2020 as the Company sought greater exposure of its exploration projects as commodity prices achieved new highs. Such efforts contributed to an overallotment of its \$3.08 million financing which was closed in two tranches in July 2020. Given two active joint ventures and active exploration programs for its mineral properties for 2021, the Company continued its advertising and marketing efforts in 2021 which resulted in higher costs than the prior comparable quarters in 2020. The positive drilling results from its Tombstone project necessitated greater market exposure resulted in higher costs in the third quarter of 2021.

Share-based payments were recognized for the vesting provisions for stock options. No stock options were granted in the first and second quarters of 2020. In August 2020, the Company granted stock options for 1,930,000 common shares with an exercise price of \$0.40 and expiry date of August 7, 2025. The stock options are subject to vesting provisions in which 20% vest on grant date and 20% vest every 6 months thereafter. The combination of the stock volatility and number of stock options subject to vesting provisions along with the effects from the re-pricing of the exercise prices contributed to the increase in 2020. In April 2021, the Company granted stock options for 1,015,000 common shares with an exercise price of \$0.30 and expiry date of April 12, 2026. The stock options are subject to vesting provisions in which 20% vest on grant date and 20% vest every 6 months thereafter. The stock option grant would increase share based payments in the second quarter of 2021 relative to prior quarters.

Interest income is realized from the Company's excess cash which is held in interest bearing investment savings account. As cash is expended on working capital needs and exploration programs, quarterly interest will commensurately decrease. The Company did not have any cash in interest bearing account in the first two quarters of 2020 whereas proceeds from the \$3.08 million financing in July 2020 were invested to earn passive income from its premium savings account.

Finance and interest charges in the second and third quarters of 2020 are interest on such loans which bore interest at 12% per annum. The loans were repaid in July 2020.

The foreign exchange gain (loss) was from the net effects of transactional foreign currency and jurisdictional translation and revaluation effects from its Mexican and US subsidiaries which operate in Mexican pesos and US dollars, respectively, and from certain U.S. dollar stated accounts during the period. The Company's functional currency is the CAD dollars. The US dollars appreciated relative to the Canadian dollar and Mexican peso during the first quarter of 2020 resulting is higher foreign exchange losses, from US dollar transactions and its US subsidiaries. The US dollar and Mexican peso depreciated relative to the Canadian dollar during the remaining periods of 2020 in which the Canadian dollar continued to strengthen in 2021.

In the fourth quarter of 2020, the Company wrote down a portion of its value added tax receivable in Mexico as there are uncertainties related to its collectability and / or refundability. Also such write-downs are indicative of the added costs of engaging dedicated Mexican tax specialists to assist with their collectability.

Non controlling interest represents the allocation of operating expenses of the corporate joint venture for the Cervantes project to the joint venture partner.

As at September 30, 2021, the Company's mineral property interests are comprised of the following:

(An Exploration Stage Company)

September 30, 2021	\$ 3,102,244	\$	2,210,338	\$	5,312,582	

In the first quarter of 2021, the Company mobilized a field crew to conduct a soil and outcrop rock chip surface sampling program which outlined new gold-copper-molybdenum geochemical soil and rock anomalies on the Cervantes porphyry gold-copper property in Sonora, Mexico.

In March 2021, the Company acquired two patented claims amounting to 15.2 hectares (37.5 acres), increasing the overall Tombstone joint venture land package to 434.4 hectares (1,073.4 acres). In April 2021, the Company mobilized a reverse circulation drill program at Tombstone which was completed in September 2021 for 23 holes for 2,716 metres. The RC program is designed to step out and down from the Phase 1 drill patterns drilled in 2020 to expand the shallow, broad, bulk tonnage gold-silver mineralization discovered around and below the Contention pit.

During the nine months ended September 30, 2021, funds of \$105,900 were received for the Cervantes project and \$240,500 for the Tombstone project from the respective joint venture partners.

#### 1.5 <u>Summary of Quarterly Results (Unaudited)</u>

The following table provides selected financial information of the Company for each of the last eight quarters ended at the most recently completed quarter, September 30, 2021. All dollar amounts are expressed in Canadian dollars unless otherwise indicated.

In the third quarter of 2020, the Company implemented programs for marketing its minerals exploration projects which contributed to the closing of \$3.08 million financing.

#### 1.6 Liquidity

The Company is in the exploration stage and has not yet determined whether its mineral property interests contain reserves. The recoverability of amounts capitalized for mineral property interests is entirely dependent upon the existence of reserves, the ability of the Company to obtain the necessary financing to complete the development and upon future profitable production. The Company knows of no trends, demands, commitments, events or uncertainties that may result in the Company's liquidity either materially increasing or decreasing at the present time or in the foreseeable future except as disclosed in this MD&A and in its regulatory filings. Material increases or decreases in the Company's liquidity are substantially determined by the success or failure of the Company's exploration and development programs and overall market conditions for smaller mineral exploration companies. The Company has endeavored to secure mineral property interests that in due course could be brought into production to provide the Company with cash flow which would be used to undertake work programs on other projects. To that end, the Company has expended its funds on mineral property interests that it believes have the potential to achieve cash flow within a reasonable time frame. As a result, the Company has incurred losses during each of its fiscal years. This result is typical of smaller exploration companies and will continue unless positive cash flow is achieved.

The following table contains selected financial information of the Company's liquidity:

	Sep	tember 30,	December 31,		
	—	2021	2020		
Cash Working capital	\$	845,694 826,991	\$	1,919,485 1,983,302	

During the nine months ended September 30, 2021, warrants for 3.18 million common shares were exercised for gross proceeds of \$626,000 and stock options for 160,000 common shares were exercised for gross proceeds of \$19,200.

(An Exploration Stage Company)
Management's Discussion and Analysis
For the Three and Nine Months ended September 30, 2021
(expressed in Canadian dollars)

During the nine months ended September 30, 2021, funds of \$105,900 were received for the Cervantes project and \$240,500 for the Tombstone project from the respective joint venture partners.

In October and November 2021, the Company closed a private placement in two tranches totalling 5.25 million units at \$0.30 per unit for gross proceeds of \$1.58 million.

Ongoing operating expenses and exploration activities continue to reduce the Company's cash resources and working capital, as the Company has no sources of operating revenues.

The Company may enter into option agreements for mineral properties that involve payments in the form of cash and/or shares of the Company as well as minimum exploration expenditure requirements. Under Item 1.7, further details of contractual obligations are provided as at September 30, 2021. The Company will continue to rely upon equity financing as its principal source of financing its projects.

#### 1.7 Capital Resources

At September 30, 2021, the Company has earned in various interests in its minerals properties which are subject to joint venture agreements.

#### 1.8 Off-Balance Sheet Arrangements

There are no off balance sheet arrangements which could have a material effect on current or future results of operations, or the financial condition of the Company, except for those disclosed in this MD&A or in the Company's public filings.

#### 1.9 Transactions with Related Parties

Key management includes directors (executive and non-executive) and senior management. The compensation paid or payable to key management is disclosed in the table below.

Except as disclosed elsewhere in the MD&A, the Company had the following general and administrative costs with related parties during the nine months ended September 30, 2021:

			Net balance			
	Nine	months ended	receiva	able (payable)		
	Septe	ember 30, 2021	Septe	mber 30, 2021		
Key management compensation:						
Executive salaries and remuneration (1)	\$	330,584	\$	-		
Directors fees		18,354		(18,354)		
Share-based payments		288,406		-		
Executive salaries and remuneration (1)	\$	637,344	\$	(18,354)		
Net office, sundry, rent and salary allocations recovered from (incurred to) company(ies)		_				
sharing certain common director(s) (2)	\$	(11,797)	\$	(2,926)		

(An Exploration Stage Company)
Management's Discussion and Analysis
For the Three and Nine Months ended September 30, 2021
(expressed in Canadian dollars)

- Includes key management compensation which is included in mineral property interests, employee remuneration, and project evaluation.
- The companies are AzMet and Canagold Resources Ltd. and Endeavour Silver Corp., both of which shares one common director with the Company.

Amounts which are incurred to related parties are in the normal course of business. The Company shares common office facilities, employee and administrative support, and office sundry amongst companies with a common director, and such allocations to the Company are on a full cost recovery basis. Any balances due to related parties are payable on demand.

Item 1.2 provides further details of the acquisition of the Cervantes property from AzMet.

#### 1.10 Proposed Transactions

There are no proposed material asset or business acquisitions or dispositions, other than those in the ordinary course of business and other than those already disclosed in this MD&A, before the board of directors for consideration, and other than those already disclosed in its regulatory and public filings.

#### 1.11 Critical Accounting Estimates and Judgements

The preparation of financial statements in accordance with IFRS requires management to make estimates, assumptions and judgements that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements along with the reported amounts of revenues and expenses during the period. Actual results may differ from these estimates and, as such, estimates and judgements and underlying assumptions are reviewed on an ongoing basis. Revisions are recognized in the period in which the estimates are revised and in any future periods affected.

Significant areas requiring the use of management estimates relate to determining the recoverability of mineral property interests; the determination of accrued liabilities; accrued site remediation; the variables used in the determination of the fair value of stock options granted and compensation warrants or finder's fees warrants issued or modified; and the recoverability of deferred tax assets. While management believes the estimates are reasonable, actual results could differ from those estimates and could impact future financial performance and cash flows.

#### 1.12 Changes in Accounting Policies including Initial Adoption

The Company did not early adopt any recent pronouncements as disclosed in Note 2(f), "New accounting standards and recent pronouncements", of the audited consolidated financial statements for the years ended December 31, 2020 and 2019.

## 1.13 Financial Instruments and Other Instruments

The Company classifies its financial instruments as follows:

**Financial Assets** 

Cash Fair value through profit or loss ("FVTPL")
Receivables Loans and receivable at amortized cost

**Financial Liability** 

Accounts payable and accrued liabilities 
Other financial liabilities under amortized cost

(An Exploration Stage Company)
Management's Discussion and Analysis
For the Three and Nine Months ended September 30, 2021
(expressed in Canadian dollars)

#### Management of Financial Risk

The Company is exposed in varying degrees to a variety of financial instrument related risks, including credit risk, liquidity risk, and market risk which includes foreign currency risk, interest rate risk and other price risk. The types of risk exposure and the way in which such exposure is managed are provided as follows.

The fair value hierarchy categorizes financial instruments measured at fair value at one of three levels according to the reliability of the inputs used to estimate fair values. The fair values of assets and liabilities included in Level 1 are determined by reference to quoted prices in active markets for identical assets and liabilities. Assets and liabilities in Level 2 are valued using inputs other than quoted prices for which all significant inputs are based on observable market data. Level 3 valuations are based on inputs that are not based on observable market data.

The fair values of the Company's receivables and accounts payable and accrued liabilities and loans payable approximate their carrying values due to the short terms to maturity. Cash is measured at fair values using Level 1 inputs.

#### (a) Credit risk:

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash with high-credit quality Canadian financial institutions. Management has reviewed the items comprising the accounts receivable balance which may include amounts receivable from certain related parties, and determined that all accounts are collectible.

## (b) Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company ensures that there is sufficient capital in order to meet short-term business requirements, after taking into account the Company's holdings of cash and its ability to raise equity financings. As at September 30, 2021, the Company had working capital of \$827,000. The Company will require additional funding to meet its short-term liabilities and administrative overhead costs, and to maintain its mineral property interests in 2021.

Accounts payable and accrued liabilities are due in less than 90 days.

#### (c) Market risk:

The significant market risk to which the Company is exposed are foreign currency risk, interest rate risk and other price risk.

#### (i) Foreign currency risk:

The Company has certain cash and accounts payable stated in United States dollars and Mexican pesos, mineral property interests which are in the USA and Mexico, and a portion of its operations is in Mexico, resulting in expenditures subject to foreign currency fluctuations. Fluctuations in the United States dollar and Mexican peso would impact the losses of the Company and the values of its assets and liabilities as the Company's functional and presentation currencies are the Canadian dollar. The Canadian dollar fluctuates and floats with the United States dollar and Mexican peso.

At September 30, 2021, the Company was exposed to currency risk for its Canadian dollar equivalent of financial assets and liabilities denominated in currencies other than Canadian dollars as follows:

(An Exploration Stage Company)
Management's Discussion and Analysis
For the Three and Nine Months ended September 30, 2021
(expressed in Canadian dollars)

	Stated in Canadian Dollars						
	Held in			Total			
	Uni	ited States					
	Dollars		Mexi	can Pesos			
Cash Accounts payable and accrued liabilities	\$	209,325 (116,010)	\$	1,324 (6,235)	\$	210,649 (122,245)	
Net financial assets (liabilities), September 30, 2021	\$	93,315	\$	(4,911)	\$	88,404	

Based upon the above net exposure as at September 30, 2021 and assuming all other variables remain constant, a 10% depreciation or appreciation of the Canadian dollar relative to the United States dollar and Mexican pesos could result in a decrease/increase of approximately \$9,000 in the Company's net losses. The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

#### (ii) Interest rate risk:

In respect of financial assets, the Company's policy is to invest excess cash at floating rates of interest in cash equivalents, in order to maintain liquidity, while achieving a satisfactory return. Fluctuations in interest rates impact on the value of cash equivalents. Interest rate risk is not significant to the Company as it has no cash equivalents at period-end.

#### (iii) Other price risk:

Other price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices. The Company currently does not have any financial instruments which fluctuate with market prices.

#### 1.14 Other MD&A Requirements

#### 1.14.1 Other MD&A Requirements

Additional information relating to the Company are as follows:

- (a) may be found on SEDAR at www.sedar.com;
- (b) is also provided in the Company's unaudited condensed consolidated interim financial statements for the three months and nine months ended September 30, 2021 and audited consolidated financial statements for the years ended December 31, 2020 and 2019.

#### 1.14.2 Outstanding Share Data

The Company's authorized share capital consists of unlimited number of common shares without par value.

Changes in the Company's share capital for the nine months ended September 30, 2021 are as follows:

(An Exploration Stage Company)
Management's Discussion and Analysis
For the Three and Nine Months ended September 30, 2021
(expressed in Canadian dollars)

	Number of Shares	Amount
Balance at December 31, 2020	55,771,113	\$ 9,388,293
Issued:		
Share issue expenses	-	(3,622)
Property acquisition	600,000	201,000
Exercise of warrants	3,180,000	709,400
Exercise of stock options	160,000	29,530
Balance at September 30, 2021	59,711,113	\$ 10,324,601

During the nine months ended September 30, 2021, warrants for 3.18 million common shares were exercised for gross proceeds of \$626,000 and stock options for 160,000 common shares were exercised for gross proceeds of \$19,200.

In October and November 2021, the Company closed a private placement in two tranches totalling 5.25 million units at \$0.30 per unit for gross proceeds of \$1.58 million. Each unit was comprised of one common share and one share purchase warrant which is exercisable to acquire one common share at an exercise price of \$0.40 for a period of two years. On October 29, 2021, the Company closed the first tranche for 3.3 million units for gross proceeds of \$1 million. On November 17, 2021, the Company closed the second tranche for 1.9 million units for gross proceeds of \$575,000. Finders fees were comprised of \$294 in cash and 980 warrants with the same terms as the underlying warrants in the private placement.

At November 26, 2021, there were 64,961,505 common shares issued and outstanding.

The Company has a stock option plan that allows it to grant stock options to its directors, officers, employees and consultants, provided that the aggregate number of stock options granted shall not at any time exceed 10% of the total number of issued and outstanding common shares of the Company. The exercise price of each stock option shall be based on the market price of the Company's shares as traded on the TSX Venture Exchange at the time of grant. Stock options have a maximum term of ten years and terminate 30 days following the termination of the optionee's employment, except in the case of death, in which case they terminate one year after the event. Vesting of stock options is made at the discretion of the Board at the time the stock options are granted.

The continuity of stock options for the nine months ended September 30, 2021 is as follows:

	Septemb	er 30, 2021
	Number of shares	Weighted average exercise price
Outstanding balance, beginning of period	4,830,000	\$0.23
Granted	1,015,000	\$0.30
Exercised	(160,000)	\$0.12
Outstanding balance, end of period	5,685,000	\$0.24

On April 12, 2021, the Company granted stock options for 1,015,000 common shares to directors, officers and employees with an exercise price of \$0.30 and expiry date of April 12, 2026. The stock options are subject to vesting provisions in which 20% vest on grant date and 20% vest every 6 months thereafter.

At November 26, 2021, stock options for 5,685,000 common shares remain outstanding of which 4,304,000 stock options are exercisable.

(An Exploration Stage Company)
Management's Discussion and Analysis
For the Three and Nine Months ended September 30, 2021
(expressed in Canadian dollars)

At September 30, 2021, the Company had outstanding warrants as follows:

Exercise Prices	Expiry Dates	Outstanding at December 31, 2020	Issued	Exercised	Expired	Outstanding at September 30, 2021
111005	Expiry Dates	December 31, 2020	Issucu	Excicised	Expired	September 30, 2021
\$0.20	July 2, 2021 (1)	3,000,000	-	(2,780,000)	(220,000)	-
\$0.20	June 3, 2021	300,000	-	(300,000)	_	-
\$0.10	April 3, 2022	2,600,000	-	(100,000)	-	2,500,000
\$0.40	July 9, 2022	3,538,082	-	-	-	3,538,082
\$0.40	July 9, 2022 (2)	212,040	_	-	-	212,040
\$0.40	July 22, 2022	1,591,342	-	-	-	1,591,342
\$0.40	July 22, 2022 (3)	89,837	-	-	-	89,837
		11,331,301	-	(3,180,000)	(220,000)	7,931,301

- On July 2, 2019, the Company issued 3,900,000 warrants with an exercise price of \$0.20 and an expiry date of July 2, 2021, and have a total fair value of \$117,000 as determined by the excess private placement price over the market price of the common share on closing date.
- These finders fee warrants have a fair value of \$50,767 and was recorded as share issuance expense as applied to share capital with a corresponding credit to reserve for share-based payments calculated using the Black-Scholes option pricing model with the following assumptions: volatility 129%, risk-free rate 0.28%, expected life 2 years, and expected dividend yield 0%.
- These finders fee warrants have a fair value of \$22,962 and was recorded as share issuance expense as applied to share capital with a corresponding credit to reserve for share-based payments calculated using the Black-Scholes option pricing model with the following assumptions: volatility 129%, risk-free rate 0.27%, expected life 2 years, and expected dividend yield 0%.

In October and November 2021, the Company issued the following warrants pursuant to a private placement which closed in two tranches (Note 9(b)(i)):

- 3,332,453 warrants with exercise price of \$0.40 and expiry date of October 29, 2023;
- 1,917,939 warrants with exercise price of \$0.40 and expiry date of November 17, 2023; and
- 980 finders fee warrants exercise price of \$0.40 and expiry date of October 29, 2023.

At November 26, 2021, warrants for 13,182,673 common shares remain outstanding.

#### 1.15 Outlook

The Company will continue to depend upon equity financings to continue exploration work on and to advance its mineral property interests, and to meet its administrative overhead costs for the 2021 fiscal year. There are no assurances that capital requirements will be met by this means of financing as inherent risks are attached therein including commodity prices, financial market conditions, and general economic factors. The Company does not expect to realize any operating revenues from its mineral property interests in the foreseeable future.

#### 1.16 Risk Factors

A detailed discussion of the Company's risks can be found below and under "Risk Factors" in the MD&A as included in the Fourth Quarter Report for the year ended December 31, 2020 and filed on SEDAR on April 28, 2021.

#### COVID-19 Pandemic

The COVID-19 (the novel coronavirus) pandemic is having a material adverse effect on the global economy as well as caused volatility in the global financial markets. While the primary impact of COVID-19 on the Company and the global economy occurred for almost 2 years, the economic impact of COVID-19 and related government imposed restrictions remain a risk. To the extent the COVID-19 pandemic adversely affects our business and financial results, it may also have the effect of heightening many of the other risks described in this "Risk Factors" section.

#### Possible Dilution to Current Shareholders based on Outstanding Options and Warrants

At September 30, 2021, the Company has 59,711,113 common shares, 5,685,000 stock options and 7,931,301 warrants outstanding. The resale of outstanding shares from the exercise of dilutive securities could have a depressing effect on the market for the Company's shares. At September 30, 2021, dilutive securities represented approximately 22.8% of the Company's issued shares.
